ABOUT

I'm a full stack and Javascript developer, passionate for all things web and open-source with prior experience in developing, maintaining and testing codebases.

EXPERIENCE

- **Maxcell**
January 2020 - December 2021
Fullstack web developer

Projects worked on: <https://www.maxcell.lk/> , <https://www.corporate.maxcell.lk/>

Technology used: Next.js, Typescript, Tailwind CSS, Material ui, React, Postgresql, AWS Lambda Functions.

- Developed a custom frontend and admin dashboard for a e-commerce site.
- Deployed backend in severless environment for increased availability and scalability.
- Made websites installable as a PWA
- Optimized the codebase for higher lighthouse score and faster loading experience.

SKILLS

- Languages: Typescript, JavaScript, HTML5/ CSS, Solidity
- Frameworks/libraries: Next.js, Tailwind CSS, React, Prisma, React native, CSS-in-JS, Material ui
- Dev Tooling/DevOps: AWS Lambda, Cloudflare Workers, Planetscale DB, Supabase, Git, Postgresql, Mysql
- Strong API design knowledge in rest api's and graphql endpoints.

PROJECTS

- **Eisen Matrix**
Project link: <https://github.com/G3root/Eisen-Matrix>
Tech stack: React Native, React Native paper, zustand, emotion CSS, Expo

Eisen Matrix is a prioritization app that uses Eisenhower matrix technique as workflow to prioritize a list of tasks built with **React Native**.
